

IDRONECT is expanding and we are looking for

## a **Full Stack Developer**

to join our dynamic team !

*IDRONECT - The Drone Management Platform exists since 2015 and makes it easy to fly drones in a safe, legal and efficient way. Fun too by the way. We provide value to the entire drone ecosystem and connect drone professionals and enthusiasts. We are crossing borders and are expanding. That is why we need you !*

As a Fullstack Javascript Ninja, you love to follow-up the latest and greatest trends in web development. You prefer component-driven design as you want to re-use stuff as much as possible throughout your application. You despise copying code inside the applications you work on as you prefer maintainability over hacking. You know how to apply styling guidelines, and you love to make your apps as user-friendly as possible.

**If you are :**

- Insane about scalability
- In love with user-centric solutions
- Not afraid to pivot
- Extremely curious and eager to learn
- Super creative, and
- Convinced that drones will rule the world,

Then read on !

**At IDRONECT you will be doing the following cool stuff:**

- Develop new features
- Maintain and improve existing features
- Automate the testing/validation part as much as possible
- Collaborate with remote teams
- Assist the growth team with technical tricks
- Build prototypes of new features
- Occasional travelling
- and the sky is not the limit !

**Our ideal candidate:**

- has experience in working in a lean startup environment and has a startup mindset
- has experience building web applications with modern front-end frameworks
- is fluent in Dutch and/or English. As we deploy worldwide any other language is great too !
- has drone knowledge, is a drone pilot or aviation aficionado

But above you are curious, creative, social and willing to learn !

### Some of the technologies we work with:

- **Languages:** Modern JavaScript ES2019, optionally TypeScript, Python,...
- **Frameworks:** React/Next, React Native, Meteor, GraphQL, REST, Serverless, Express,...
- **Tools:** Git, Gitlab, ESLint, Prettier, Docker, VSCode, Figma, Zeplin,...
- **Data Storage:** MongoDB, SQL, ElasticSearch, Redis, JSON
- **Cloud Providers:** AWS, Digital Ocean, Google Cloud Platform, Netlify,...

### We are offering

- Full time employment in an international, dynamic and growing industry
- A great and competitive salary package
- Fun and flexible working conditions
- A career path with growth potential

If you think you have what it takes and want to join the IDRONECT team then send us in the most expeditious and creative way your application **by email** to [chris@idronect.com](mailto:chris@idronect.com)
